

10.5/12.5 Offshore

CROSS FUNCTIONAL. ULTIMATE OFFSHORE PERFORMANCE.

The largest offerings in the RIBCRAFT line, the RIBCRAFT 10.5 and RIBCRAFT 12.5 deliver the ultimate offshore response.

By combining RIBCRAFT's signature deep V hull and bow sheer with an extended waterline and generous beam these models make easy work of virtually any sea condition. Designed for extended passages and operations requiring large payload capacities, the 10.5 and 12.5 offer incredible design flexibility. From a simple center console for optimal work space to multiple seating arrangements for crew and passenger transport to cabin arrangements for all weather protection or overnight accommodations, these flagship models answer the needs of virtually any application. Depending on speed and load requirements, the 10.5 and 12.5 offer the choice of twin or triple outboards or twin diesel sterndrives or jets.

SPECS	10.5	12.5
LOA:	34'5"	41'
